

LAUREN JOHN ANGELES

WEB DEVELOPER

Angeles city, Pampanga | angeleslaurenjohn@gmail.com | <https://lauren-angeles-portfolio.vercel.app/>

SUMMARY

Full-Stack Web Developer and BSIT graduate (Dean's Lister) specializing in fast, accessible, production-ready applications. Proficient across the full stack with core expertise in TypeScript, React, Node.js, and PostgreSQL. Passionate about engineering high-performance interfaces, scalable APIs, and intentional user experiences.

PROFESSIONAL EXPERIENCE

Full Stack Developer, Freelancing	Aug 2025 - Present
- Shipped 3 production full-stack web applications to live deployment (Sillage, ClientForge, Job Tracker), including responsive UI, REST APIs, and PostgreSQL-backed data layers. - Built ClientForge, a multi-tenant client portal with role-based access, deliverable workflows, file uploads, and analytics using Next.js, TypeScript, and Prisma. - Developed and deployed Sillage, a 28-item interactive catalog with mood-based browsing, dynamic routing, and animation-rich UX using React 19, Next.js 16, and Tailwind CSS.	
Information Technology Trainee, PBO Global	Jun 2024 - Sep 2024
- Designed and optimised a robotic control system, realizing a 12% performance improvement. - Coordinated testing and validation, ensuring compliance with industry standards. - Provided technical expertise, contributing to a 15% reduction in system failures.	

PROJECTS

Sillage — Interactive Product Discovery Web App	July 2026
- Designed and shipped a 28-item interactive catalog with mood-based browsing, filters, and shareable product pages. - Built immersive UI transitions and a drag-to-rank feature using React 19, Next.js 16, Tailwind CSS, and Framer Motion. - Optimized responsive layouts for mobile and desktop with production deployment on Vercel.	
ClientForge — Multi-Tenant Client Portal	March 2026
- Built a multi-tenant SaaS portal with owner/client roles, deliverable workflows, notifications, analytics, and file uploads. - Implemented authentication, REST APIs, validation, rate limiting, and unit tests using Next.js, TypeScript, and Prisma. - Deployed to production on Vercel with scoped client access and demo-ready seeded accounts.	
Job Tracker — Full-Stack Application Tracker	Oct 2024
- Built a multi-tenant SaaS portal with owner/client roles, deliverable workflows, notifications, analytics, and file uploads. - Implemented authentication, REST APIs, validation, rate limiting, and unit tests using Next.js, TypeScript, and Prisma. - Deployed to production on Vercel with scoped client access and demo-ready seeded accounts.	

SKILLS

React	Node.js	Git
Next.js	Express	Vercel
TypeScript	Prisma	UI/UX
Tailwind CSS	PostgreSQL	Testing
Framer Motion	REST APIs	Responsive Design

EDUCATION

Bachelor of Science in Information Technology, Web Development	Jun 2021 - Apr 2025
Holy Angel University · Angeles City, Pampanga	
- Dean's Lister; graduated with academic distinction. - Relevant coursework in web technologies, software engineering, database systems, and project-based development.	

ADDITIONAL INFORMATION

Languages: English, Tagalog Certifications: React — The Complete Guide (Udemy, 2026); The Complete Node.js Developer Course (Udemy, 2026); SQL and PostgreSQL: The Complete Developer's Guide (Udemy, 2025) Awards/Activities: Dean's Lister, Holy Angel University; Information Technology Trainee, PBO Global (2024); Portfolio: https://lauren-angeles-portfolio.vercel.app/
